Subject: SPARC Research Donation to A Little Heart Charity

Dear Brumfield Elementary School Administration,

SPARC Research is honored to help our community by donating these school supplies to families in need. We believe in the work of A Little Heart Charity and are honored to be working with them to better serve the greater Fauquier County area and the children who lack the resources they need to be successful.

We firmly believe that education is the key to our future and we wish you another year of great learning!

Sincerely,

SPARC Research
